

8 May 2008

Dear Parent,

This week, all the children have enjoyed playing in the beautiful Spring sunshine.

Let's hope we are not tempting fate, but even the sunshine brings its own problems -in particular, the increase in and dangers from UVA/UVB rays. With this in mind, it would be of great assistance to the staff if you could 'cream' your child in the morning. There are a number of proprietary sun screens that are suitable for children and give a high level of protection for up to eight hours. This action would also help to avoid any possible allergic reactions which could arise from a 'communal' cream being used.

Mrs Wright has been in touch with the School Outfitters, Frank Harrison. They have assured us they have a plentiful supply of the recommended School sunhat. The wearing of this regulation sun hat (named) would also be a sensible precaution and could be easily stored in your child's pump bag.

Please remember the procedures for bringing medicines into School if your child is suffering from Hay Fever.

It is important that your child is well-hydrated, so please take advantage of the fact that they may have a 250ml 'sports cap' bottle of water in school at all times.

As we have to be prepared for all weathers, I would like to take this opportunity to remind you that all pupils should have the regulation red cagoule in School at all times.

Yours sincerely,

W.J. Staniland  
Acting Headteacher
